Subject: ref planning permission 18/00342/OUT

I received notification of the above planning application as I am the property adjoining the intended application.

I make no comment at the moment but bring to your attention the maps they are using are well out of date and show my property as a small bungalow. This is not the case as it was extended and I have brick built outbuildings not shown as I was a business on this site until 2 years ago.. There are also covenants on the land as at one time our properties were 1 parcel of

land.

May I request a site visit to my property before you consider this application to assess the effect on my property bearing in mind the above comments.

I do have a photograph taken a few years ago by helicopter which shows the actual situation regarding mature trees on the boundry. I will aim to get a copy of this to you asap.

Regards
Christina Bentley
