Thank you for consulting Nottinghamshire Wildlife Trust on the above application.

We are no longer able to provide the level of free ecological planning advice as we have previously, as explained in our letter to your Authority of the 23rd June 2016, so we are focussing our limited time on the most potentially ecologically damaging applications. You will be aware that it is your duty under the NPPF and the NERC Act to ensure that you can determine applications based on a sound understanding of the ecological implications and the adequacy of any proposed mitigation or compensation, and in order to do so you will need access to independent ecological advice. We are currently investigating options for provision of this advice on a paid basis through a Service Level Agreement, hopefully jointly with NCC, and will be providing information to your Team Leader as soon as possible on how this might work, as the most economically viable option. In the meantime you may need to commission advice from a private sector source. Alternatively NWT can provide advice on an ad hoc basis until long term agreements are in place, this could proceed on the same basis as the Derbyshire LPAs pay DWT for advice as follows:

Per hour - £40 plus VAT
Per half day - £140 plus VAT
Per day - £280 plus VAT

Please contact us if you would like to proceed on this basis as an interim measure, until a more long term solution can be agreed.

Kind regards

Claire
